Product Description

Link-pp's L9-SDxx01-xxPPI/L9-TDxx01-xxPPI/L9-FDxx01-xxPPI series of transceiver modules are the perfect solution for low-speed communication networks. These transceiver modules support data rates up to 200Mbps. The module is fully compliant with the Multi-sourced 1×9 protocol. These transceiver modules provides the system designer with products to implement a range of FDDI and ATM designs at the 100Mbps/125Mbps rate and SONET/OC-3, SDH/STM-1 for Telecommunication.

Absolute Maximum Ratings

Operating of the transceiver beyond the Absolute Conditions Listed in Table 1 will degrade or damage the product. It's not implied that the product would function above the recommended operating environment, it's possible to reduce the reliability and lifetime of device if Recommended Operating Environment is exceeded (Refer to table 2)
